Refunds: 10+ days prior to class = 100%;  
5-10 days prior to class = 50%;  
0-5 days prior to class = no refund.

Satisfy your training requirements with this comprehensive 3-day technician level specialized training. You will learn the basic knowledge and techniques required for personnel responding proactively to areas with hazardous materials present. This training prepares you to immediately apply your knowledge to the field, with extensive hands-on training and real-world examples from experienced instructors focused on the animal response using the latest equipment. You will have the opportunity to apply your training during a hands-on simulated incident response. Hybrid decontamination methods will be used. This course meets the standards under 29 CFR Part 1910.120 (e) required for employees to complete appropriate HAZWOPER training prior to entering or beginning work on an uncontrolled hazardous site.

Each Student will receive a manual to keep as a reference for when you're in the field
